

V. UPLOADING AND EXCHANGING THE ARTISTIC PRODUCTIONS

Schools can upload and exchange their artistic productions on the project wiki space (<http://artined-eu.wikispaces.com/>) which is available in 6 languages. Schools will need to register and be approved before adding their content. They can embed a YouTube video images and information about their use of ARTinED. Each participating school will have their own Wiki page where they can add some brief information about their school, videos of their work with the project (they should be less than 5 minutes each), information about their use of the Project. Every school page will also have a discussion forum, so other schools and students can post comments. Every school page will also have a discussion forum, so other schools and students can post comments.

If you do not know how to embed a video or audio on the wiki space, you can watch 'How to' sections available on the ARTinED wiki space (<http://artined-eu.wikispaces.com/>). These videos show you how to embed a video in this Wiki step by step. There is also a video showing how to use the discussion forums.
